-2

I have a string that looks like: `[something ="1,2,3"]` I need get everything between the quotes into a string. I'm sure that preg_match is the way to do this but i'm not sure of the expression to use.

```
$content = [something = "1,2,3"];
$new_string = preg_match('?regex?','$content');
```

php   regex   string

Try this:

```
$content = '[something = "1,2,3"]';

if (preg_match('/"([^"]+)"/', $content, $matches)) {
    $matchedContent = $matches[1];
}
```
